

As many
unique solutions
as there are pets.

PET NUTRITION

Partner with us for your next pet food innovation

PET NUTRITION

Innovate to your heart's content

As part of Archer Daniels Midland Company, the ADM Pet Nutrition team continually capitalizes on the vast resources and services of one of the world's largest agricultural processors and food ingredient providers. Our pet nutrition experts leverage ADM's influence to provide you with just the right solutions to meet today's pet owners' demands while ensuring unsurpassed safety and quality. By strategically collaborating with us, you have access to a global network that can help you create the next big thing in pet foods and treats.

Unmatched expertise in custom-blending ingredients

Our Pet Nutrition business is part of ADM Animal Nutrition™, so when you partner with us, you have access to all the services and expertise of the leader in premix and custom blending. We offer precise nutrient handling, especially with ingredients that have unique handling properties. And, we provide the traceability and quality control necessary for your success.

- **Save time and money, space and resources:** Increase efficiencies by letting our experts procure, manage and blend ingredients. We also provide you with the convenience of improved inventory management by lessening the bin space required in your facility. Plus, by utilizing customized ingredient blends that meet your production needs, you can better optimize your core operation.
- **Ensure quality:** We understand the importance of critical safety monitoring for your overall success. To ensure the accuracy of each production batch, we utilize in-depth quality control measures throughout our production processes. These checks and balances include NIR analysis of incoming ingredients, ferrous and non-ferrous metal detection, and bar-coding for continuous ingredient and lot tracking.
- **Customize solutions:** Our expert team understands the art and science of mixing various ingredients to help you create your own unique pet food or treat offering. Collaborate with us to turn your unique ideas into niche products. We thrive on working directly with clients on ideation and development plans for new product introductions.

Explore our expanding world of Specialty Pet Food Ingredients

We continually expand our portfolio of ingredients, which helps you create specialty products and gain a competitive edge in the marketplace. As your strategic partner, we work with you to develop new products and modify current ones to meet changing demands.

- **Value-Add Ingredients:** Through ADM's Animal Nutrition group, our pet nutrition specialists provide innovative ingredient solutions through the use of versatile ingredients like edible beans, essential amino acids and protein concentrates, along with an ever-expanding portfolio of proprietary ingredients.
- **Trend and Specialty Ingredients:** With the addition of Wild Flavors and Specialty Commodities Inc. to the ADM family, we have access to a wide array of natural colors and flavors, along with hard-to-find, functional and non-traditional ingredients, such as ancient grains. Our expansive catalog is constantly shifting to provide the latest on trending items and insights to help ensure product uniqueness. Our breadth of ingredients adds nutrition, texture and taste to any pet food or treat.

Leading the way in quality assurance

Rest assured that our quality standards for the pet industry are just as critical as our standards for human food ingredients. ADM's quality programs are designed to help ensure that we are the industry leader in product compliance.

- Sourcing of raw materials from a select group of approved vendors
- Product safety monitoring and expansive checks and balances throughout the custom premix blending process
- Custom blending procurement and ingredient handling that includes NIR fingerprinting for ingredients and bar-coding for lot tracking to ensure traceability of incoming ingredients
- Thorough tracking and testing procedures that include final cross checks and batch yield assessment

PET NUTRITION

Whether it's ancient grains, Colors from Nature[®], customized flavors, plant- or nut-based proteins, ADM is your resource. Make us your one call for blending capabilities that bring together ingredients, vitamins and minerals for all of your pet food and treat nutrition solutions. Plus, now with the addition of Crosswind Petfoods, Inc. we continue to expand our manufacturing expertise.
