of nutrition is here.

## Fill Nutritional Gaps with AMPT Minerals

For more info:

AMPT Minerals target optimum nutrient levels, complementing the forage, with distinctive mineral sources selected for achieving precision and balance. AMPT **now delivers 100% chelated copper, manganese and zinc for improved bioavailability**, providing a positive impact on critical body functions to benefit overall performance. The production returns for an effective mineral program far outweigh the cost. The right mineral supplementation pays.
