

NurseTrate^{®} Milk Replacers

Refer to product label for complete mixing and feeding directions.

NurseTrate^{®} PowerMAX^{®}

The image is a placeholder for a product label or image for NurseTratePowerMax_1016-WEB. The alt text is "NurseTratePowerMax_1016-WEB".

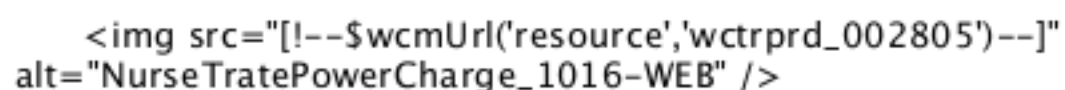

PowerMAX is formulated to deliver the level of nutrients necessary to help calves achieve their full genetic potential. This intensified, full-potential feeding program is formulated to deliver the nutrients necessary to enable calves to achieve their full genetic potential as if they were receiving cow's milk.

- 28% all-milk protein and 18% fat
- Includes ADM's exclusive *SI Inside*SM to help enhance calf health and growth efficiency
- Selenium yeast for more bioavailable selenium which is important for immune function
- Vitamin and mineral fortified to support health, vigor, sound immune system and sturdy frame, resulting in optimum growth
- Non-medicated and medicated options

Expect:

- Better health
- Lower morbidity
- Greater, faster, healthy growth
- Enhanced future milk production potential

NurseTrate^{®} PowerCHARGE^{™}

The image is a placeholder for a product label or image for NurseTratePowerCharge_1016-WEB. The alt text is "NurseTratePowerCharge_1016-WEB".

Formulated to deliver a similar nutrient level as PowerMAX while utilizing a more cost-effective formula. PowerCHARGE features a complementary blend of milk and specialized plant protein sources.

- 25% protein and 20% fat
- Includes ADM's exclusive *SI Inside*SM to help enhance calf health and growth efficiency
- Selenium yeast for more bioavailable selenium which is important for immune function
- Vitamin and mineral fortified to support health, vigor, sound immune system and sturdy frame, resulting in optimum growth
- Non-medicated and medicated options

Expect superior health and growth with more economically-stable price than all-milk formulas
