

PROOF OF PERFORMANCE

Doug Plesek

Brooklyn, Iowa
March 2017

Gro Fast®

Doug Plesek has fed Gro Fast products for many years with excellent gains of 2.9-3.0 for growing and finishing Holsteins. Cattle finish at approximately 1430–1450 lb.

According to Plesek, “Gro Fast products have worked very well for me over the last few years. My Holsteins no longer have to get to 1600 lb to be finished.”

Gro Fast® and Sweet Unique™

Ray Plesek has been using Sweet Unique for three years and has observed quicker feed intake along with absence of fines and dust in the product. He's also pleased with the Gro Fast products.

Sweet Unique™

“Dairyman's Dream . . . For many years I dreamt of a palatable, consistent calf starter. I tried them all—texturized, small pellets, bigger pellets, etc. Products would work for a while then the next batch would be dry or too much molasses or too many fines. Then one day about three to four years ago, I was introduced to Sweet Unique. WOW, was I impressed with the few bags I got as a trial. The smell, the feel, the consistency from one bag to the next was very good and calves loved it. No more problems getting them to eat at day five. Thanks ADM.”
