

PROOF OF PERFORMANCE

BLUMENGARD COLONY

- Faulkton, SD350 cows
- Using ADM products since 2017

 DESTINY

 Sweet Unique

PRODUCTS USED

Sweet Unique™ Calf Starter 20%
Destiny® Transition Cow MP Plus
Destiny Dry Cow (Faroff)
Customer Milker Premix

“When we started using Sweet Unique verses the traditional calf starter, our calves intake doubled, health issues were almost eliminated, we started seeing shinier hair coats, and we saw more filled out and heavier calves at weaning.

“The Destiny Dry Cow program was the key to the whole success. Cows now take off after calving. We don’t have any more cleaning problems, displaced abomasums, or milk fever. We are just about averaging 70 lbs in one week after calving. Drug (medication) usage has also decreased by 90%.

“We are making history with our lactating cows. In 50 plus years of dairying, we have never had a 3.8 butterfat verses before 3.2% butterfat. We are now averaging 85 lbs per day and have a healthy herd of cows.

“ADM Animal Nutrition is a great company.”
