- Towner, ND
- 1,000 cows

PRODUCTS USED:

Lactation Concentrate
Destiny Dry Cow 36%
Destiny 30% Transition Cow Mineral
Rack Plus Deer Tubs

“The team at ADM Animal Nutrition and our nutritionist Roger Heithoff have done an outstanding job at increasing our milk production, our rate of gains, and our antler growth. Thank you for being part of our success!”

“At Sandhills Dairy, LLLP, the milking herd components have increased by two points in butterfat and two pounds of milk per cow for the same cost. Our dry cow and transition program has substantially reduced retained placentas and DA’s under Roger’s nutritional guidance.

“Our feeder to finish cattle facility at The Big Sombrero have improved rates of gains by a ¼ pound per head per day, maximizing our feed efficiency along with reproductive performance.

“We have seen antler growth increase by a minimum of 10% on the resident deer herd at Spring Lake Outfitters, LLC, bringing us a huge success for our clients.”
