

Patriot® Performance Horse Feed

A feed for all ages and lifestyles of horses

Product Number: 80021AAA

ADM’s Patriot Feeds are formulated for today’s performance horses using the latest scientific data. Patriot utilizes GROSTRONG® Minerals, multiple sources of high-quality protein, quality grains, highly digestible fiber sources, and added vegetable fats to provide balanced nutrition for horses. With this combination, horses can be healthy and perform at their best with less risk of metabolic and digestive disorders. Where forage supplies are limited or of poor quality, choose one of the complete feeds in the Patriot line-up of products.

Product Description

Patriot Performance is a high-quality, palatable, pelleted feed, which provides 14% protein and no more than 20% fiber. Patriot Performance can be fed to mature performance horses, broodmares, stallions, and growing horses.

Features

Select ingredients, consistent formulation

Higher energy, lower starch formulation

Highly digestible, fermentable fiber

GROSTRONG Minerals

Complexed, Organic Minerals Zinc, Manganese, & Copper

CitriStim®

PrimaLac®*

Benefits

Ensures product consistency and dependable nutrient sources.

Vegetable fat and highly digestible fiber sources results in a lower starch content, which may help decrease the risk of digestive disorders.

Highly digestible fiber sources such as soybean hulls and alfalfa meal provides energy to the horse while lowering the starch content of the diet, which is favorable for the equine digestive system.

Provides 28 major minerals, trace minerals, vitamins, and electrolytes (including biotin and salt) to ensure horses receive nutrients in correct amounts and ratios needed for maintenance, growth, reproduction, and performance.

Complexed minerals are more bioavailable compared to inorganic sources and with shown benefits for immunity, reproduction, skeleton and joints, hoof integrity, and skin/coat.

CitriStim, an ADM proprietary whole-cell inactivated yeast (*Pichia guilliermondii*), may help the horse strengthen its defense against health challenges by supporting and optimizing gut function, gut integrity, and body defense responses.

A direct fed microbial (aka probiotic) consisting of four beneficial bacteria that help maintain an optimal microbial balance in the gut, thus improving nutrient utilization of the entire ration.

Features

Benefits

Features and benefits continued from previous page.

Provides Prospanse™ yeast	Studies have shown yeast enhances feed palatability, digestibility, and hindgut fermentation.
Portion of vitamin E is natural-source	Vitamin E protects body tissues from oxidative damages. In this way, vitamin E is vital for protection during health challenges, and may be especially important for working horses as they are more prone to exercise-induced muscle damage. Research shows that natural-source vitamin E is more bio-available than synthetic vitamin E.
Pellet form	Improved nutrient digestibility and absorption; easy to feed and reduces feed waste.
Highly palatable	Encourages feed consumption.

Product Form/Packaging

Pellet form in 50-lb bag (80021AAA24)

Guaranteed Analysis

Crude Protein, Min.	14.0 %	Copper (Cu), Min	50 ppm
Lysine, Min	0.8 %	Selenium (Se), Min	0.6 ppm
Methionine, Min	0.3 %	Zinc (Zn), Min	160 ppm
Threonine, Min	0.5 %	Vitamin A, Min	3,500 IU/lb
Crude Fat, Min.	6.0 %	Vitamin D3, Min	500 IU/lb
Crude Fiber, Max.	20.0 %	Vitamin E, Min	100 IU/lb
Acid Detergent Fiber, Max	27.0 %	Biotin, Min	1.00 mg/lb
Neutral Detergent Fiber, Max.	44.0 %	Lactobacillus acidophilus, Min	10,200,000 CFU/lb
Dietary Starch, Max	16.5 %	Lactobacillus casei, Min	10,200,000 CFU/lb
Sugar, Max	5.25 %	Bifidobacterium thermophilum, Min	10,200,000 CFU/lb
Calcium (Ca), Min.....0.7 % Max.	1.2 %	Enterococcus faecium, Min	10,200,000 CFU/lb
Phosphorus (P), Min.	0.5 %	Contains a source of live (viable) naturally occurring microorganisms	

Feeding Directions

Feed 0.5 to 0.75 lb of Patriot Performance for every 100 lb of body weight (5.5 to 8.25 lb per 1100-lb horse) along with at least 20 lb of good-quality forage divided into at least two meals per day. Do not feed more than 0.4 lb/100 lb body weight per meal. Adjust feeding rate for each individual horse to maintain the desired body condition. If your horse needs less than 0.4 lb/100 lb bodyweight of Patriot Performance to maintain condition, provide a GROSTRONG® Vitamin and Mineral product according to label directions. Always provide clean, palatable water and salt on a free-choice basis. Any feed changes should be made gradually over 7 to 10 days. See bag for additional details. Consult with a veterinarian or ADM nutritionist for a recommended diet. For more information, visit www.ADMequine.com

WARNING: This feed contains copper. Do not feed to sheep or other copper sensitive species. Follow label directions. Feeding added selenium at levels in excess of 0.3 ppm in the total diet is prohibited.
