

PROPLEX[®] MVP

ADM Protein Blend

Product Description

PROPLEX MVP contains a blend of proprietary, high-quality protein sources produced by ADM. These protein sources, combined with select amino acids and a digestibility modifier, are formulated to a consistent amino acid composition which approximates that of Special Select Menhaden Fish Meal, but in a formula that does not contain animal proteins. This unique blend is highly suited for use in situations that demand high-quality protein with a consistent nutrient profile.

Features

- The combination of highly digestible proteins plus synthetic amino acids provides an excellent amino acid profile with high standardized ileal digestibility (SID) values; avoids the need to inventory, store, and handle multiple protein and amino acid sources
- Excellent flowability characteristics allow for use in bulk systems
- Ideal high-quality, consistent, protein product for vegetarian diets; does not contain soybean meal (which contains anti-nutritional factors) and animal proteins

Ingredients

Plant Protein Products, Dried Fermentation Biomass, Processed Grain By-Products, Vegetable Oil, L-Lysine, Calcium Carbonate, Roughage Products, Dried Trichoderma reesei fermentation product, DL Methionine Hydroxy Analogue Calcium, L-Threonine.

Guaranteed Analysis

Crude protein, min.	55.0%
Lysine, min.	4.0%
Crude fat, min.	6.0%
Crude fiber, max.	5.0%
Calcium, min./max.	0.2–0.7%
Salt	None added
Selenium	None added

Physical Characteristics

Tan, flowable granular
Bulk density 38 lb/ft³

Suggested Usage

For further manufacture of animal feeds. This product is intended as a source of protein for making animal feeds. Contact your ADM representative for usage rate tailored to your specific operation.

PROPLEX MVP can be included in swine diets at up to 10%.

Storage & Handling

Store in unopened, original packaging in cool, dry area. Shelf life is two years from date of manufacture.
