

PROOF OF PERFORMANCE

MIKE BUESCHEL DAIRY

- New Holstein, WI
- 200 cows
- Saw increased milk production (65 lb to 85 lb) and butterfat % (3.5% to 4%) while on ADM products

NURSETRATE® DESTINY

PRODUCTS USED

NurseTrate® calf milk replacer, LegenDairy™ calf feed, LegenDairy heifer, Destiny® dry cow products, Fortress™ minerals, Gro Fast™ pellets, and custom lactation protein blend

What value has ADM Animal Nutrition product(s) provided to your operation? “The value we have seen is the custom protein that we are receiving as it has given us healthier cows.”

What difference(s) have you seen since using ADM Animal Nutrition product(s)? “Overall improved herd health and body condition. The protein and fat tests have improved which has assisted us in receiving incentives from the milk plant. When we have healthy cows-we get healthy calves.”

What are the top reasons you use ADM Animal Nutrition product(s)? “The top reason would be the health of the herd. From the calves to growing heifers, to the milking cows. We have seen great improvements since using ADM products.”

Personal comments about the success of using ADM Animal Nutrition products? “I have appreciated the monthly personal visit by ADM Representative Pat Heacock to review the ration and to make any changes when they are necessary. This visit helps me to be aware of what new products are available and makes recommendations based on my needs.

“It has been a good partnership with Pat Heacock and Bill Braun. I have learned so much and greatly appreciate the time and information that they have shared with me to help improve my dairy operation. The dairy operation has changed so much since I started farming and this partnership helps me stay on top of good animal health when there are so many other things going with the dairy.”
