

Sweet Unique™ Equine

Product Number
81679AAA

A Fortified Feed for Mature Horses

Product Positioning

Economically formulated, Sweet Unique Equine is designed to meet the maintenance needs for recreational and casual-use horses. It offers an alternative to traditional sweet feed with wholesome nutrition accompanied by delicious flavor and sweet aroma. It's a sweet feed without the mess and stays fresh longer. Unlike traditional sweet feed, Sweet Unique Equine doesn't dry out or brick. It offers an attractive option for horse owners looking for a fresh horse feed at a competitive price. The unique patented-cold pelleting process means Sweet Unique Equine retains freshness, palatability, and condition better than traditional sweet feeds.

Product Description

Sweet Unique Equine provides basic nutrition and is specifically designed for mature horses. It is a fortified, palatable, cold-pelleted feed, which provides 12% protein, 4% fat, and a maximum of 18% fiber. It should be fed with good-quality forage.

Features

ADM's cold pellet patented technology

Select ingredients, consistent formula

CitriStim®

Prospan® Yeast

Highly digestible, fermentable fiber and vegetable oil

Provides protein

Contains basic mineral formulation and vitamins A, D, E and B-complex

Pelleted, palatable, sweet feed

Benefits

Yields a superior "sweet" feed that stays fresh longer without the stickiness and bricking associated with traditional sweet feeds.

Ensures product consistency and dependable nutrient sources.

An ADM proprietary feed ingredient, which is a source of yeast mannans and beta glucans that may favorably impact the gut microbial population.

Studies have shown yeast enhances feed palatability, digestibility, and hindgut fermentation.

Provides energy in a form favorable to the equine digestive system and highly utilizable by the horse; vegetable oil contributes to hair coat shine.

Recommended amounts to meet needs.

Provides major and trace minerals and needed vitamins to ensure mature horse needs are met for maintenance and health.

Horses readily consume the product.

Product Form/Packaging

Cold pellet form in 50-lb bags (81679AAAC4)

How Much is Needed

• 3-6 lb per horse daily (refer to feeding directions)

Guaranteed Analysis

Crude Protein, min.	12.0%
Crude Fat, min.	4.0%
Crude Fiber, max.	18.0%
Acid Detergent Fiber, max.	24.0%
Neutral Detergent Fiber, max.	34.0%
Calcium (Ca), min./max.	0.5-1.0%
Phosphorus (P), min.	0.3%
Copper (Cu), min.	10 ppm
Selenium (Se), min.	0.3 ppm
Zinc (Zn), min.	74 ppm
Vitamin A, min.	3,600 IU/lb

Ingredients

Wheat Middlings, Ground Corn, Soybean Hulls, Cane Molasses, Dehydrated Alfalfa Meal, Rolled Oats, Calcium Carbonate, Corn Condensed Distillers Solubles, Dehulled Soybean Meal, Vegetable Oil, Salt, Lignin Sulfonate, Brewers Dried Yeast (*Saccharomyces Cerevisiae*), Sodium Propionate (A Preservative), Vitamin A Supplement, Vitamin D₃ Supplement, Vitamin E Supplement, Menadione Sodium Bisulfite Complex, Riboflavin Supplement, Niacin, d-Calcium Pantothenate, Thiamine Mononitrate, Vitamin B₁₂ Supplement, Biotin, Pyridoxine Hydrochloride, Folic Acid, Manganous Oxide, Monocalcium Phosphate, Dicalcium Phosphate, Zinc Oxide, Copper Sulfate, Magnesium Oxide, Defluorinated Phosphate, Ferrous Sulfate, Potassium Iodide, Cobalt Carbonate, Sodium Selenite, Extracted Citric Acid Presscake.

Feeding Directions

Daily Feeding Class of Horse	Body Weight (Pounds)		
	800-1000	1000-1200	1200-1400
Pregnant Mare (1-8 months of gestation)	3-5 lb	3-5 lb	3-5 lb
Light Work	3-5 lb	4-6 lb	4-6 lb
Moderate Work	4-6 lb	4-6 lb	4-6 lb
Idle Horse	3-5 lb	3-5 lb	3-5 lb

The amounts recommended in this chart are strictly guidelines. Every horse must be fed as an individual. Feed with 1.5–3.0% of body weight daily as good-quality hay or pasture. Clean, fresh water should be available at all times. We recommend offering a GROSTRONG® Minerals product free-choice. For more information, call 1-800-680-8254.

WARNING: This feed contains copper. Do not feed to sheep or other copper sensitive species.
Feeding added selenium at levels in excess of 0.3 ppm in the total diet is prohibited.
