

Pen Pals® poultry feed products are reliable choices for your backyard flock. Performance-focused Pen Pals poultry products provide wholesome, natural-sourced, unique ingredients to support wholesome, healthy birds.

Pen Pals® Chicken Starter-Grower (70009AAA)

A complete feed for starting and growing chickens that is a highly digestible. It contains high-quality grain sources, multiple protein sources, and needed minerals and vitamins to encourage fast, efficient growth.

- Crumble form provides 18% protein, 3% fat.
- Does not contain animal products and animal by-products.
- Provides nutrients necessary for optimum growth and nutrients essential for a properly functioning immune system, which is vital to good health.
- Feed continuously as the sole ration to replacement chickens.

Pen Pals® Chicken Starter-Grower Medicated (70009ACF)

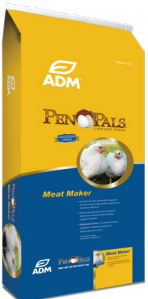

Replacement chickens: For development of active immunity to coccidiosis; and for increased rate of weight gain and improved feed efficiency.

- Active Drug Ingredients
Bacitracin Methylene Disalicylate 25 gm/ton
Amprolium 0.0125%
- Feed continuously as the sole ration under conditions of severe exposure to coccidiosis up to or over 8 weeks of age, until onset of production to replacement chickens.

Pen Pals® Meat Maker (70012AAA)

A complete feed for finishing broilers, ducks and geese from starting (brood) through finishing, and turkeys 10 weeks and older. An all-in-one feed specifically designed to produce fast growing, healthy meat birds at maximum efficiency. No additional grain, protein, mineral, or vitamin sources are needed.

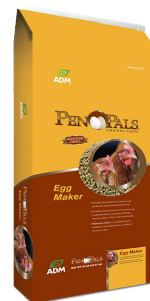

- Crumble form provides 21% protein, 5% fat.
- Provides amino acids needed to encourage lean muscle growth.
- Does not contain animal products and animal by-products.
- Feed continuously as the sole ration to finishing broilers, turkeys 10 weeks and older, and ducks and geese from the day the birds arrive until the desired finished weight is attained.

Pen Pals® Egg Maker Complete (70010AAA)

Designed to meet the complete nutritional needs of domestic layers in production. No additional grain, protein, mineral, or vitamin sources are needed.

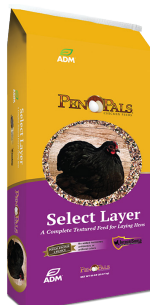

- Pelleted or crumble form provides 16% protein, 3% fat.
- It contains high-quality grain sources, multiple protein sources, and needed minerals and vitamins to encourage maximum egg production.
- Does not contain animal products and animal by-products.
- Feed continuously as the sole ration to laying hens.
- **NOTE:** When feeding Scratch Grain, do not exceed more than 10% of diet for layers in addition to Pen Pals® Egg Maker Complete.

Pen Pals® Select Layer (81947AAA)

A texturized, non-medicated, complete feed that is formulated for laying hens. It contains high-quality grains, legumes, and protein sources and is fortified with vitamins and minerals to encourage maximum egg production.

- Provides 17% protein, 4% fat.
- Contains whole grains, peas, lentils, sunflower seeds and oyster shells.
- Provides the necessary essential amino acids to support egg production and overall performance.
- Feed continuously as the sole ration to laying hens.

Pen Pals® Total Flock (70753AAA)

A multi-flock formula designed to support a healthy, productive mixed backyard flock without having to feed multiple feeds for different species. Formulated for laying hens, broiler chickens, ducks, geese, and gamebirds older than 7 weeks old, as well as turkeys over 10 weeks old.

- Pelleted form provides 20% protein, 4% fat.
- Provides essential amino acids to encourage growth and production as well as helping support immune function.
- Does not contain animal products and animal by-products.
- Feed as the sole rations to chickens, ducks, geese and gamebirds from 7 weeks old. For laying chickens, ducks, geese and gamebirds during egg production, ad libitum access to additional source of calcium (coarse limestone or oyster shell) needs to be available. Feed as sole ration to turkeys from 10 weeks old.

Pen Pals® Feather Maker (70744AAA)

A highly digestible, non-medicated, pelleted, complete feed formulated for hens specifically during molting and feather regrowth. It provides 18% protein and 3.5% fat along with minerals and vitamins to support feather regrowth and maximum egg production. Can also be used for laying hens. No additional grain, protein, minerals, or vitamin sources are needed.

- Supplies essential amino acids needed for feather regrowth after molting (feathers are 94–96% protein) and supports egg production.
- Contains organic zinc. Zinc is considered an important trace mineral for feather development, and organic zinc is more readily available for absorption compared to inorganic sources of zinc. Zinc is also important for immunity, reproduction, skin and claw integrity, muscle development, and eggshell quality.
- Marigold extract, a natural pigment, used for deep skin, shank, beak, and yolk enhancement; also contains compounds with vitamin A activity.
- Feed continuously as the sole ration to laying hens.

Pen Pals® PRIME (70757AAA)

A texturized, complete ration for growing and adult poultry not in production and pigeons. It can also be fed as a scratch grain or treat to all classes of birds. It contains high-quality grains, legumes, and protein sources and is fortified with vitamins and minerals to support efficient growth.

- Textured feed that provides 17% protein, 5% fat.
- It contains whole grains, peas, lentils, sunflower seeds and oyster shells.
- Fish and animal protein sources to enhance protein quality and digestibility.
- Feed continuously as the sole ration to growing and adult poultry not in layer or meat production and as the sole ration to pigeons. When fed as a scratch grain or treat to birds in production, do not exceed more than 10% of the diet for layers in addition to a complete feed (for example Pen Pals Egg Maker Complete).

Pen Pals® All-Star Scratch (80185AAA)

Designed to be fed with poultry supplements to make complete rations for laying hens and meat birds. It is an ideal product to use with Pen Pals Egg Maker Balancer in a 1:1 ratio along with free-choice oyster shell for laying hens.

- Comprised of a loose mixture of coarsely cracked corn, whole milo, whole wheat, whole oats, and sunflower seed.
- Does not contain animal products and animal by-products.
- Feed to birds as a supplement to a ration. Feed at a rate of no more than 10% of the diet for layers in addition to a complete feed (for example Pen Pals Egg Maker Complete). To make complete rations for laying hens mix 1:1 with Pen Pals Egg Maker Balancer along with free-choice oyster shell for laying hens.

Pen Pals® Poultry Scratch Block (70741AAA)

Designed to be fed free-choice as a supplement to the ration for adult broilers, layers, and game birds. It is ideal for supplementing the diet of confined, adult birds.

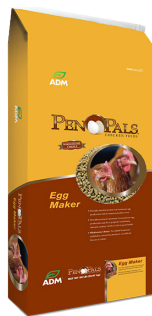

- 25-lb block form, free-choice feeding.
- Facilitates natural feeding and pecking behavior, helping alleviate boredom in confined birds by keeping birds active and entices natural behavior.
- Does not contain animal products and animal by-products.
- Wholesome source of energy to fuel production of meat and eggs.
- Provide free access to poultry and game bird as a supplement to the ration. Consumption will vary and is regulated by availability of natural scratch.

Pen Pals® Egg Maker Balancer (70011AAA)

Designed to provide the nutritional needs of domestic layers in production when fed with good-quality scratch grains in a 1:1 ratio and free choice oyster shell.

- Highly digestible, non-medicated, pelleted supplement formulated for laying hens. It provides 20% protein and 3% fat along with minerals and vitamins to encourage maximum egg production.
- Does not contain animal products and animal by-products.
- Feed to laying chickens by blending half Pen Pals Egg Maker Balancer and half scratch grain. Offer oyster shell free-choice.

Pen Pals® Egg Maker Concentrate (80101AAA)

A highly digestible 38% protein, 3% fat, non-medicated, concentrated supplement formulated for starting and growing pullets and laying hens.

- Meal form, with crumble form option.
- Does not contain animal products and animal by-products.
- Provides nutrients necessary for optimum growth and nutrients essential for a properly functioning immune system, which is vital to good health.
- How Much is Needed: Varies depending on age of bird and level of protein in complete feed; see Mixing Directions on tag.
