

## Parity Plus® Sow 75

*Mixing Directions*

### Mixing and Feeding Directions

Ingredient	Breeding Gilts	Gestation	Lactation	Breeding Gilts	Gestation	Lactation
Corn, lb	1590	1645	1255	1697	1724	1460
Soybean Meal (48%), lb	350	280	670	235	195	450
Parity Plus Sow 75, lb	60	75	75	60	75	75
Amino Acid Balancer Pack #12147, lb	0	0	0	8	6	15
<b>Total, lb</b>	<b>2000</b>	<b>2000</b>	<b>2000</b>	<b>2000</b>	<b>2000</b>	<b>2000</b>

Feed mixture as the sole ration. During gestation, feed 4.5 lb per head per day or according to body condition. During the last two to four weeks of gestation, switch to a lactation diet and increase feeding rate to approximately 5.5 to 6.5 lb per head per day, depending on body condition. For best results, offer feed to lactating sows and gilts at least two times a day. Aggressively increase the amount fed per day so that lactating sows and gilts are on full feed as soon as possible. Feed 5 to 7 lb per head per day from weaning to rebreeding. Provide clean, fresh water at all times.

**CAUTION:** Use this product as the sole source of selenium. Added selenium above 0.3 ppm in the final complete ration is not permitted.

### Recommended Rations Using DDGS

Ingredient	Breeding Gilts	Gestation	Lactation	Breeding Gilts	Gestation	Lactation
Corn, lb	1195	1305	915	1297	1398	1115
Soybean Meal (48%), lb	345	220	610	235	120	395
DDGS, lb	400	400	400	400	400	400
Parity Plus Sow 75, lb	60	75	75	60	75	75
Amino Acid Balancer Pack #12147, lb	0	0	0	8	7	15
<b>Total, lb</b>	<b>2000</b>	<b>2000</b>	<b>2000</b>	<b>2000</b>	<b>2000</b>	<b>2000</b>

Complete feed is to be fed continuously as the sole ration. Provide clean, fresh water at all times.
