

## Getting Game Birds Ready for Flight

With roots tracing back to the late 1800s, ADM has built a solid foundation of producing high-quality, dependable animal feed products. Flight Ready™ Game Bird Feeding Program is designed to provide critical nutrients that

game birds need for fast, efficient development and growth. Successful game bird production not only depends on a sound nutritional program, but also on proper management through all stages of development.

# GAME BIRD MANAGEMENT GUIDE

## Space Requirements

BIRD	AGE	FLOOR	FEEDER	WATERER
<b>Pheasant (Floor Brood)</b>	0 – 10 days	4 birds/sq ft	1"/bird	Three 1-gallon founts/100 birds
	10 days – 6 wks	1 bird/sq ft	2"/bird	4 ft of trough/100 birds, or 1 round hanging 18" diameter waterer/75 birds
	6 wks – mature	1 bird/4 sq ft	3"/bird	4 ft of trough/100 birds, or 1 round hanging 18" diameter waterer/75 birds
<b>Pheasant (Battery Brood)</b>	0 – 3 wks	5 birds/sq ft	1"/bird	1"/bird
<b>Quail<sup>1</sup></b>	0 – 10 days	6 birds/sq ft	0.5"/bird	2 chick jars/100 birds
	10 days – 6 wks	4 birds/sq ft	1"/bird	Two 1-gal founts/100 birds, or 1 round hanging 18" diameter waterer/300 birds
	6 wks – mature	2 birds/sq ft	1.5"/bird	1 ft trough/100 birds, or 1 round hanging 18" diameter waterer/300 birds
<b>Chukar<sup>2</sup></b>	0 – 10 days	6 birds/sq ft	0.75"/bird	Two 1-gal founts/100 birds
	10 days – 6 wks	3 birds/sq ft	1.5"/bird	2 ft of trough or 1 round hanging 18" diameter waterer/150 birds
	6 wks – mature	1 bird/2 sq ft	2"/bird	Two 1-gal founts/100 birds
<b>Ducks<sup>3</sup></b>	0 – 2 wks	2 birds/sq ft	0.5"/bird	Four 1-gal founts/100 birds, or 2 cups/100 birds
	2 – 8 wks	1 bird/3 sq ft	1"/bird	4 ft trough/100 birds, or 4 cups/100 birds, or 1 round hanging 18" diameter waterer/75 birds
<b>Geese<sup>3-4</sup></b>	0 – 2 wks	1 bird/sq ft	0.5"/bird	Four 1-gal founts/100 birds, or 2 cups/100 birds
	2 wks – mature	1 bird/sq ft	1"/bird	4 ft trough/100 birds, or 4 cups/100 birds, or 1 round hanging 18" diameter waterer/75 birds
<b>Wild Turkeys<sup>5</sup></b>	0 – 8 wks	1 bird/sq ft	1"/bird	Three 1-gal founts/100 birds
	8 wks – mature	1 bird/sq ft	1"/bird	4 ft trough/100 birds, or 1 round hanging 18" diameter waterer/75 birds

<sup>1</sup> Use special waterers for quail. Place pebbles in waterers to prevent drowning young chicks.

<sup>2</sup> For floor or battery brooding.

<sup>3</sup> Under intensive production with environmental houses and raised wire floors, floor space can be reduced significantly.

<sup>4</sup> Floor space should increase as goslings grow. They can be placed on pasture any time after 2 weeks.

<sup>5</sup> For range birds, provide 1.5 sq ft of floor space per bird in sheds and 20 sq ft of range per bird.

For information on Flight Ready Game Bird products and program contact your ADM dealer or sales representative or visit our Web site.

## Growth Rate and Feed Consumption

AGE	EXPECTED AVG. WEIGHT	PERIOD (WEEKS)	EXPECTED FEED CONSUMPTION	AGE	EXPECTED AVG. WEIGHT	PERIOD (WEEKS)	EXPECTED FEED CONSUMPTION
<b>PHEASANTS</b>				<b>DUCKS**†</b>			
3 weeks	0.30 lb	0 - 3	1.0 lb	2 weeks	1.68 lb	0 - 2	2.15 lb
9 weeks	1.35 lb	3 - 9	3.5 lb	4 weeks	4.00 lb	2 - 4	5.10 lb
12 weeks	2.05 lb	9 - 12	3.5 lb	8 weeks	7.50 lb	4 - 8	14.05 lb
Maturity	2.85 lb	12 - 17	6.0 lb	<b>GEESE†</b>			
<b>—OR—</b>				2 weeks	2.0 lb	0 - 2	3.0 lb
5 weeks	0.55 - 0.65 lb*	0 - 5	1.5 - 2.0 lb*	4 weeks	4.8 lb	2 - 4	6.3 lb
10 weeks	1.30 - 1.55 lb*	5 - 10	2.0 - 5.0 lb*	8 weeks	9.9 lb	4 - 8	22.8 lb
Maturity	2.00 - 2.85 lb*	10 - 17	6.0 - 7.5 lb*	12 weeks	12.8 lb	8 - 12	24.0 lb
<b>QUAIL</b>				<b>WILD TURKEYS</b>			
5 weeks	3.7 oz	0 - 5	0.6 lb	3 weeks	0.8 lb	0 - 3	1.3 lb
10 weeks	6.0 oz	5 - 10	1.4 lb	6 weeks	2.8 lb	3 - 6	4.0 lb
Maturity	8.0 oz	10 - 18	1.75 lb	9 weeks	5.4 lb	6 - 9	5.5 lb
<b>CHUKAR</b>				12 weeks	8.2 lb	9 - 12	8.0 lb
5 weeks	5.5 oz	0 - 3	1.0 lb	15 weeks	10.5 lb	12 - 15	8.4 lb
10 weeks	15 oz	3 - 9	3.0 lb	18 weeks	12.2 lb	15 - 18	9.2 lb
Maturity	21 oz	9 - maturity	3.5 lb	21 weeks	13.8 lb	18 - 21	9.8 lb
				24 weeks	15.3 lb	21 - 24	10.6 lb

These are only guidelines. Actual figures could vary with different nutrition, management, health, and environmental conditions.

\*By size

\*\*Duck weight is 85% of expected Pekin weight and feed consumption is 60% of expected Pekin feed intake.

† Variations in weight and feed consumption exist among breeds.
