

Feed Additives

Leading solutions with unparalleled commitment

ADM is a global leader providing animal nutrition solutions to optimize animal health, performance, welfare, profitability and efficiency.

As your global resource, we are always expanding our portfolio of offerings by continually adding the latest proven ingredients and innovations, working to give you an edge in a competitive marketplace.

Our team of industry-defining experts continually capitalize on the vast global resources and expansive network to provide the latest targeted solutions for your specific challenges.

Targeted
solutions
for demanding
challenges

B-TRAXIM Range of organic trace minerals bound to glycine. Its patented formulation and well-known chemical crystalline structure ensure high stability and increased bioavailability compared to inorganic sources and other less stable organic mineral sources commonly used in the feed industry. B-traxim features the highest metal contents for OTMs in this class. Cu 24% Mn 22% Zn 26% Fe 22%

COVOTEK FENUGREEK TM Selected combinations of aromatic substances to provide an earthy and robust fenugreek aroma. Includes thermal coating for better pellet stability. Particularly appreciated by adult ruminants.

COVOTEK 575 Selected combinations of aromatic substances to provide a warm and comforting vanilla and milky aroma for swine and ruminants. Includes thermal coating for better pellet stability. Particularly appreciated by young animals.

PAN GARLIC CND A unique garlic flavor, highly concentrated and

standardized. Provides feeds and supplements with a persistent and strong natural-garlic smell.

PAN MOLASSES MS CDN A combination of molasses flavor and high-intensity sweetener that perfectly replicates molasses sensorial properties. Pan Molasses MS CDN can help reduce molasses inclusion in feed partially or completely.

PAN-TEK WILD BERRIES Selected combinations of aromatic substances to provide a rich red & wild berries aroma. Includes thermal coating for better pellet stability. Versatile flavor for piglets, pigs and sows.

SUCRAM C150 supports animals particularly at early stages in 2 different areas: palatability and growth.

XTRACT N is a Health Canada approved Veterinary Health Product (VHP). Its recommended use is to support and optimize gut function in monogastric animals (including calves).
